

**APPENDIX TO SCHEDULE
MUST BE DISTRIBUTED TO ALL OFFICIALS**

**STABLE SECURITY/STEWARDSHIP AT INTERNATIONAL EVENTS MINIMUM
REQUIREMENTS TO ENSURE IMPLEMENTATION OF VETERINARY
REGULATIONS**

1. RESTRICTED ACCESS TO STABLE AREA

For events that require stable security, a completely restricted stable(s) area is required as set forth in Veterinary Regulations Article 1023, V. Accreditation must be checked as an access requirement and should only be granted to persons permitted to the stables area in accordance with the Veterinary Regulations Article 1023, VI.

A CCTV system may be prescribed by the FEI for certain events.

Where possible an athletes area should be provided away from the general public. Access to this area must be limited to those permitted to access the stables area only.

Whenever possible the stable area must include only stables and clean designated treatment boxes; lorries, caravans, etc., should not be permitted within the area.

Access to stables must be limited to those persons indicated in VR. It is essential that the official issuing authorized access be a responsible person of seniority within the Organising Committee.

It is important that the NFs and OCs of international events liaise closely with the Veterinary Authorities and that the Committee and all officials, particularly the Chief Steward, are aware of the Veterinary Authorities requirements in respect to access control and separation of horses in the stables and during training.

2. CONTROL OF ACCESS

A control system must operate at all entrance gates so that there is an efficient and reliable method of identifying the accreditation of those who enter and leave the stable area at any time.

Extra vigilance must be used in establishing the identity of persons and reasons for entering the stables during the night by means of a night access list.

3. STEWARDING OF STABLE AREA

At least one stable steward, directly responsible to the Chief Steward, must be present or readily available in the vicinity of the stable area 24 hours a day during the entire duration of the event. He may be assisted by deputies as required. The steward/deputies must regularly patrol the stable area, without establishing any predetermined pattern, to discourage any form of illegal practices or abuses to horses. Any misdemeanours must be reported immediately to the Chief Steward. Stewards must be under instructions to ask for the appropriate ETUE if a horse is seen to receive treatment; this also applies to the use of nebulisers.

The duty of the stewards is to safeguard the welfare of the horses and to prevent any form of illegal practices that may also disrupt fair play.

4. GROOMS

Grooms must be accredited to enter the stabling area.

The Person Responsible must ensure that his/her grooms, or any other authorised persons with access to his/her horses, are familiar with the security and stewarding procedures operating at the event attended. They must also ensure that his/her grooms, or any other authorised persons with access to his/her horses, are familiar with the regulations pertaining to the use of substances on the FEI Prohibited Substances List. Grooms may also be sanctioned if found at fault under the EADCM Regulations and further accreditation may be withdrawn, preventing attendance at an FEI Event.

5. MOVEMENT THROUGHOUT EVENT GROUNDS

Movement of horses between the stables, practice, grazing and main arena must be strictly controlled. It is appreciated that flexibility will be required depending on the requirements of other disciplines.

6. STEWARDING OF PRACTICE ARENA

The Chief Steward must ensure that all practice arenas are fully-stewarded all the time that they are officially open. He must also ensure that these arenas are subject to random controls when they are officially closed.

7. GRAZING AREA

It is recommended that a grazing area be provided at all outdoor events, and that this be subject to random control. If available, horses must only be grazed or walked in hand within this area.

The Foreign Judge/TD at events will be specifically asked to check that the relevant requirements are met as reasonably as can be expected, depending on the discipline, and to indicate clearly any shortfalls, following which consideration may be given to altering the category of the event in future.
